About Me

I studied information technology for 4 years in high school for electrical engineering. Currently, I am a computer science student at Faculty of Natural Sciences and Mathematics, department for mathematics and computer science. Over the years of learning, I have developed a strong foundation for coding, programming and technical skills, as well as gained knowledge about various topics, programming languages and software/tools.

I posses the desire and determination to work, learn and develop my knowledge and skills in the IT sector. I am ready to commit to a team work environment, contribute according to my abilities and learn from more experienced colleagues.

Education

2017 - 2021
